

WE ARE
INSPIRED
BY **PEOPLE**
AND THEIR
SAFETY.

Our **History.** Our **Future.**

The company's long history, the knowledge passed down from generation to generation, the constant evolution of technology and the best specialists – these things allow us to create footwear that stands out in the market.

Inspiration from the latest design and technology solutions is the driving force behind continuous product improvement and company development. Thanks to this, we keep up with the times and can compete with the best companies on the German - Polish and European market.

Decades of experience in the manufacture of special footwear is a guarantee of quality, safety and reliability.

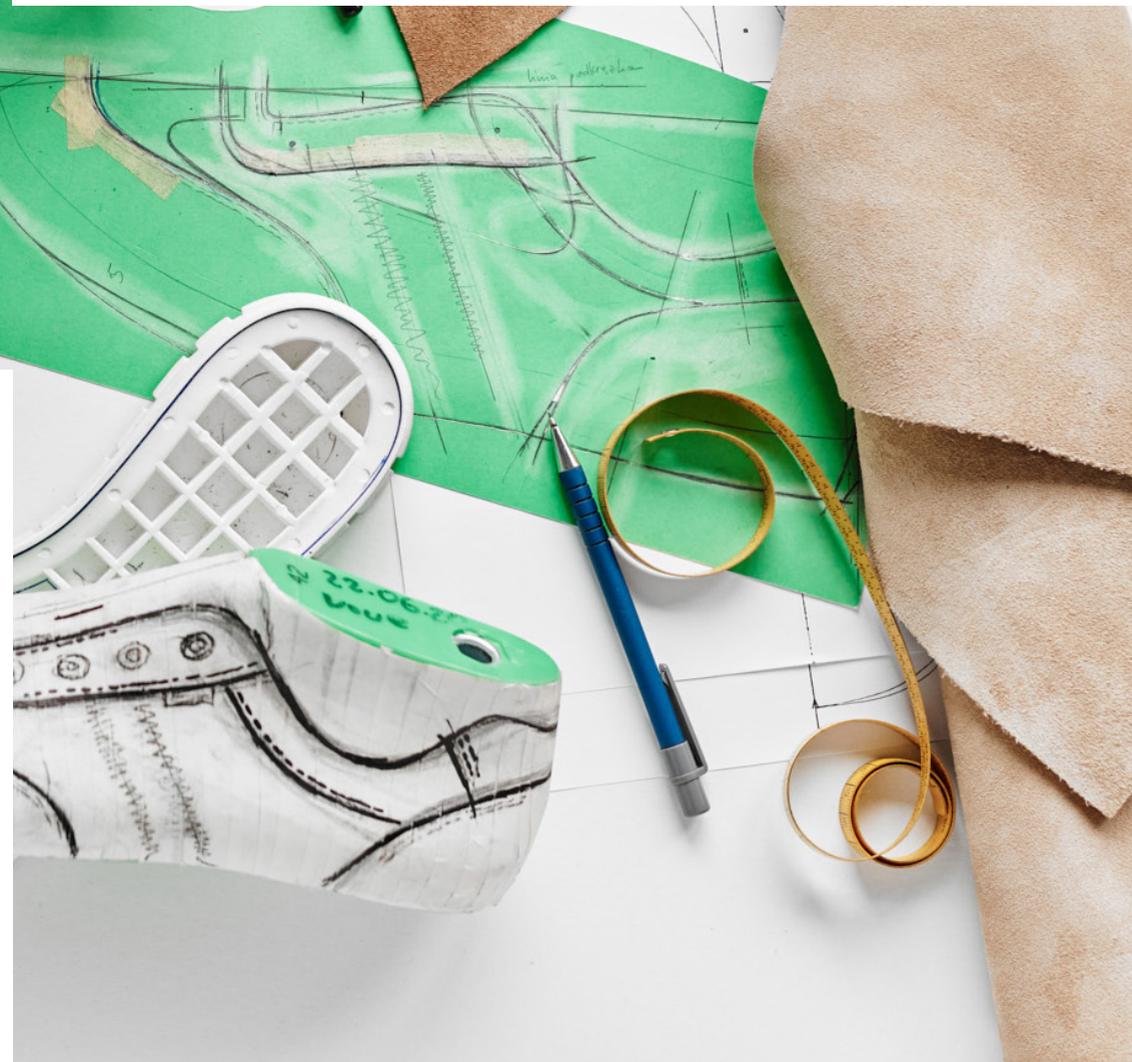

Our product.

Our branded products reach customers in more than 30 markets in Europe. Production takes place in our own production plants in Poland (Lublin) and two in Transnistria (Moldova region). Commercial activities are carried out through two trade offices in Poland and Germany.

About us.

The Abeba Group specialises in the manufacture and distribution of safety and occupational footwear, military footwear and footwear for emergency services and the police. Safety and occupational footwear is mainly intended for light industry, heavy industry and the service sector. The footwear offered is used by workers in the industrial, medical, construction, transportation and warehouse sectors, as well as in the automotive, electronics and food industries. The military footwear is designed for the military and military enthusiasts.

Discover the quality that professionals from more than 30 countries worldwide appreciate.

The abeba brand comprises several hundred models of specialist light footwear that is used wherever comfort, safety, lightness and full control are important. In the medical industry, catering, HoReCa and also in the electronics industry. We develop and produce solutions that provide protection, comfort and increase productivity.

Combining German solidity with polish vision and experience in making reliable footwear.

Abeba is a traditional German company, which was founded over 30 years ago. Through the fusion with the polish manufacturer Protektor, we were able to expand and improve our portfolio. A german/polish cooperation, with many years of experience and visions for the future.

Wherever safety and hygiene count.

We use modern technologies, ultra-light and extremely dirt-resistant materials. An experienced team of employees, including designers, technologists, constructors and many other specialists, is responsible for the development of each line. The highest possible quality is confirmed by numerous tests and studies carried out at many stages of production. Thanks to these features, abeba footwear enjoys great popularity, especially among high-class specialists.

Learn about technological advancements that have been constantly perfected since 1944.

The PROTEKTOR brand includes several hundred models for use in areas such as uniformed and emergency services, military, production, transport, construction industry, firefighting and many others. We create smart footwear that improves safety, quality and comfort in daily work for professionals from all over the world.

A multi-generational tradition of designing safe and functional footwear.

Our roots go back to 1944 - to the Lublin Footwear Factory. It was at this time and place that the prototype of today's PROTEKTOR brand began its activity. Since then, we have been constantly developing solutions aimed at improving and ensuring the safety of people who take occupational risks.

Ergonomic, durable and safe footwear.

Decades of intensive work, research and development have not only enabled us to gain the trust of our customers, but also to develop many proven technological solutions. Our footwear uses technologies such as PRT FLEX, PRO TENDON, ANA-TECH, UV PROTECTION, COLD PROTECTION and even SHOCK ABSORBER and SELF CLEAN.

Appreciate the excellent performance that allows you to cope in any situation.

The GROM brand consists of dozen of robust models of specialist footwear designed for work in adverse and demanding conditions. They are used wherever comfort, durability, full safety and even covering very long distances are important.

Legendary quality, appreciated for over 20 years not only by uniformed services.

In its many years of presence on the market, GROM footwear has won the hearts and loyalty of its customers. In the beginning, this group consisted mainly of representatives of the uniformed services, security services, customs and even border guards. As the brand evolved, this group was joined by military enthusiasts and those looking for proven and durable footwear for special tasks

Outstanding long-term durability and usability, aided by new and improving technologies.

We do not, however, rest on our laurels after so many years of success. GROM designers strive to improve and develop our products year after year. Testing and research on a regular basis, the introduction of new technologies and complete dedication. All of this ensures that GROM footwear not only meets the needs of current customers, but also attracts new ones.
